SHOCKING DISCOVERY OF A HAMIL-TON COUNTY FARMER.

Military Court of Inquiry in Session at Peru-Indiana Glass Men at Cleveland.

Special to the Indianapolis Journal. SHERIDAN, Ind., Oct. 7 .- John Parr, a place, was awakened by his wife on Saturday morning at 3 o'clock. He arose and went to a field to cut corn, leaving his wife for a time, when, glancing toward the house, he saw fire. He at once returned to the house and found the water closet in flames and his wife burned to death. When she was sitting on the floor with her feet straight out in front, her body and head leaning back against the seat behind her and her arms folded across her breast in an attitude of peaceful repose. Her po tion indicated that she must have been wholly insensible and suffered no agony from the torture of the flames. After Mr. Parr left the house she evidently went to the kitchen and lit the gas in the cook stove, as it was found burning later. It is ight possible that she may have acidentally fired her clothing at that time. The remains were burned beyond recogni-tion. The funeral took place on Sunday.

CLEVELAND, O., Oct. 7 .- The glass manufacturers of the country are in secret session here at the Hollenden to-day, and a meeting of the glass jobbers has been called to meet at the same place to-morrow. THE PORTE CORNERED

UNITED POWERS SEND A POINTED DEMAND TO RESTORE ORDER.

ocialists in Congress Declare Their Willingness for an Open Fight with the Kaiser's Empire.

CONSTANTINOPLE, Oct. 7.- The note which the representatives of the powers at Constantinople have addressed to the Porte drawing attention to the state of affairs at Stamboul and advising the Porte to adopt measures for the restoration of order, says that the subscribers have their information partly from eyewitnesses, and that it shows that private persons who were arrested were beaten and were even killed without the police attempting to prevent it that orderly persons were attacked and that those who were wounded were taken to the courts, to the police stations and to the prisons, and were killed in cold blood.

The representatives of the six powers sent the collective note to the Turkish government calling attention to the adequate measures taken by the po authorities to maintain public tranquillity in Constantinople and its suburbs, and demanding the prompt instiution of a rigorous inquiry into the recent rioting, bloodshed and wholesale imprisonment of Armenians nere. In addition, the powers demand the release of all pris oners who are innocent of wrong doing and the cessation of arrests.

Said Pasha, the new Turkish Minister for Foreign Affairs, has called at the different embassies and has presented to the representatives of the powers a communication from the Turkish government repeating the assurance that a plan for reform in Armenia has been accepted by the Porte. It is not believed, however, that this will satisfy the powers. There have been no further excesses, however, although a feeling of great disquiet still prevails and fresh demonstrations on the part of the Armenians are feared.

The Armenians, who are still inside the Patriarchate Church here in which they sought refuge after the rioting of Monday ast, fired some shots at noon to-day and was feared that another outbreak was imminent. The police watching the building and a strong force of troops was sent to the spot. The soldiers immediately all the adjacent streets. This action of the military caused quite a pame among the inhabitants of that quarter, and they fled from their homes in all directions. The Kurds then entered the workshops along the quays and expelled all the Armenians could find. Later, it is claimed, the they could find. Later, it is claimed, the bodies of four Armenians were found. There is one feature of the police work which is attracting considerable attention. It is frequently recalled that the gendarmes, while making arrests, repeatedly the persons taken into custody "to on England to deliver you." Those know the way of the Turkish officials, say that this shows that the police were ructed to impress on the minds of the nenians that Great Britain was unable unwilling to assist them in this emergency. Finally may quarters of Stam-boul have been placarded with notices in-citing the populace against "the infidels." The police, it is true, tear down these placards, but they are either unable or un-willing to do so before they have been wide-ly read and have had the effect anticipated on the Mohammedan population. It is not claimed that the government is responsi-ble for this agitation, but the work is being done and the government, apparently, is unable to put a stop to it.

THE KAISER CHALLENGED.

Herr Liebknecht Attacks the Empire in the Socialistic Congress. BRESLAU, Oct. 7 .- Herr Liebknecht, i his inaugural speech at the opening of

the Socialistic Congress to-day, referred to the remarks recently made by Emperor William of Germany, saying that attempts had lately been made to vilify the Secial Democracy, but, the speaker added, that party could now defy defeat no matter how many bayoners were at the disposal of those who wished for a trial of strength The speaker said that if people wanted a fight the Social Democrats were their men. Continuing, he said: 'The highest authority in the land throws down the gauntlet and insults us, Let us take up the challenge, no matter who it may be who casts this mud at us. He is incapable of touching us, for we are above his insults. The German empire would first col-lapse, but socialism will triumph. The congress passed a resolution to expel from the party Dr. Ruedt, of Heidelburg, on the ground that although he had been elected a delegate he had absented himself from the congress, at the same time making the statement that "he had done with that lot." Among the motions which the congress will have to consider are a large number dealing with the Agrarian programme, but they are by no means favorable to the new proposals. Several demands are made that the Agrarian programme shall be rejected without further ado, while those who do not go so far as this express the opinion that the committee which drafted the programme should remain in existence in gramme should remain in existence in order to collect further material for the agitation in the rural districts. Requests are also to be considered that the Socialists make good their claim to be represented on the presidential bench of the imperial Diet; that they should bring in annually a motion for the inroduction of an eight-hour day and a minimum wage, and that they should demand a state prolibition of wet nurses, in view of the advantages of sterilized milk. advantages of sterilized milk. Another motion which is promised good support proposes that party officials and editors who are members of the Reichstag and receive a salary of 3,000 marks and more shall not be paid for their parliamentary sorvices. One member wished liamentary services. One member wished the congress to pronounce that Social Democracy combats religious communities and their representatives if the doctrines inculcated are opposed to the proletariat war of liberation. Other motions express dissatisfaction with the party press.

SANITARY WARE POTTERS. Yearly All Employed in Trenton Go on Strike.

TRENTON, N. J., Oct. 7 .- Every sanitary

ware pottery in this city, with one or two exceptions, was closed down to-day owing to a disagreement between the employes and manufacturers. The manufacturers last week posted notices stating that the employes would be held responsible for dethe gloss kilns, and expressing an intention of hiring apprentices under the reguar scale. The men demurred, holding that ware taken from the gloss kilns had passed ugh too many hands to make it just to old the pressers responsible for any deets. The men also oppose the hiring of ntices, alleging that there are enough d pressers to meet the demands. They claim hat the desire to hire apprentices is part of a plan to get skilled men to work under price under the guise of ap-

entices. The men continued to work untheir notice. They refused and the men work pending a decision they she nization as to whether they she tand out against the manufacturers. The ter held a meeting this afternoon and aided not to recede from their position. Out Cycling in the Suburb, Accom-

panied by the Tramp of "1492." ashington Post.

To Washington has been transferred the gossip during the past summer. Washing-ton opened wide its eyes vester lay morn-ing to see Miss Lillian Russell, queen of song, of beauty, and of matrimony glid-ing over its smooth asphalt accompanied by Walter Jones, chiefly known to fame as an expert tramp in "1192" and the fair singer's "bicycle beau."

Probably Mr. Jones knew about the famous bicycle rides about Washington. Or, perhaps, the "scorching" songstress wired him to come at once and bring his wheel. In any event he came. And now the many famous "runs" about town, to the Soldiers' Home, to Brightwood, to Cabin John, will all perhaps be blessed with the sight of beauty and, perhaps, the

ound of song.
It is said that Mr. Jones first came o know Miss Russell well when he was playing in "1492" at Manhattan beach, and she was spending her summer on Long island, and they were both out every day awheel exploring the many hard sand reads for riding. At any rate they came to know each other so well that all summer ong the papers gossiped over the diva's 'latest" and talked about the Long Branch idyll just as if it has been the fair lady's first glimpse of love's young dream. Those who keep a sharp watch for the est of the week on all of the scorchers they see about the romantic roads will no doubt have an opportunity to see this interesting up-to-date romance of the
